SUMMARY

Enthusiastic software engineer with a strong foundation in backend and frontend development, eager to contribute to impactful solutions that drive success. Committed to leveraging a diverse skill set in Python, Java, and React, alongside a solid understanding of cloud technologies, to advance meaningful projects. Passionate about collaboration and innovation, aiming to enhance operational efficiency and deliver high-quality user experiences. Excited to be part of a team dedicated to transformative technology and positive change.

SKILLS

Programming Languages

Python   Java   JavaScript   Spring Boot   GoLang   React   React Native

Database

MySQL   Postgres   NoSQL   MongoDb

Technologies

REST APIs   Pytest   PostMan Documentation   GitHub Actions   CICD   AWS Cloud

Test driven development (TDD)   JUnit test   CSS   SCSS   Redux   Tailwind

Tools and IDE

PyCharm   IntelliJ   VSCode   Sublime   Git

EDUCATION

09/2023 - 09/2024
Lagos, Nigeria

Diploma in Software Engineering
Semicolon Africa

2016 - 2019
Lagos, Nigeria

National Diploma in Computer Science
Yaba College of Technology

2010 - 2011
Lagos, Nigeria

Advanced Diploma in Desktop Publishing
Fablo Computer College

EXPERIENCE

09/2024 - Present
Lagos, Nigeria

Software Engineer Intern
Semicolon Africa

· Increased API efficiency by 30% by building RESTful APIs using Springboot (Java) and Django (Python).
· Developed 3 personal websites using React, Javascript, CSS, and Tailwind.
· Managed 3 databases with Postgres and Mongodb in collaboration with engineers.
· Enhanced CICD process efficiency by 25% through GitHub actions and containerization.
· Improved application deployment time by 40% by leveraging AWS and Render cloud platforms.

EXPERIENCE

02/2022 - 10/2022

Lagos, Nigeria

Graphics Designer
Avila Naturalle

- Utilized CorelDRAW and Adobe Photoshop to create visually appealing graphics for various digital and print media.
- Designed realistic mockups to effectively showcase product concepts and branding ideas.
- Developed cohesive brand identities, including logos, packaging, and marketing materials, ensuring consistency across all platforms.
- Ensured all designs were pixel-perfect and aligned with the overall design strategy and client expectations.

03/2020 - 12/2021

Lagos, Nigeria

IT Support Specialist (Internship)
Promasidor Nigeria

- Provided top-tier technical assistance that staff to ensure seamless operations across the organisations
- Resolved 95% of technical support tickets on first contact, reducing downtime and improving employee productivity.
- Led a system-wide hardware and software upgrade, improving performance and reducing troubleshooting requests by 30%.
- Configured and deployed over 50 devices in a short turnaround for new hires, ensuring minimal disruption to onboarding.

04/2016 - 12/2019

Lagos, Nigeria

Senior Graphics Designer
BUYIT Computers

- Increased client satisfaction by 25% by delivering high-quality visual concepts ahead of deadlines while adhering to brand guidelines.
- Boosted product sales by 40% through the creation of compelling packaging designs and marketing collateral that enhanced product visibility.
- Saved 10% in design budget annually by sourcing cost-effective design materials and managing vendor relationships effectively.
- Trained junior designers on design principles, tools, and techniques, improving team efficiency and overall design quality by 25%.

03/2012 - 12/2015

Lagos, Nigeria

Computer Instructor
Fablo Computers

- Tutoring students in computer appreciation and desktop publishing programs
- Improved class engagement by 40% by integrating real-world projects and case studies into the curriculum, boosting practical understanding.
- Increased student pass rates by 30% through the development of customized lesson plans and hands-on tutorials for diverse learning levels.
- Enhanced student satisfaction scores by 25% through the use of innovative teaching methods, such as flipped classrooms and collaborative learning.

PROJECTS

EaziRent (House Rental App)

🔗 eazi-rent-eight.vercel.app

Built using Java (Backend), Springboot (Frramework), React & Javascript (Frontend), PostgreSQL (Database)

Dee Logistics (Items delivery app)

🔗 https://deelogistics-dee-dayos-projects.vercel.app

Built using Java as backend, React JS for frontend , CSS and Javascript for integration
